Save on Sarix and Software-Only Recording

FREE DS4U

Free Recording. Unlimited Possibilities

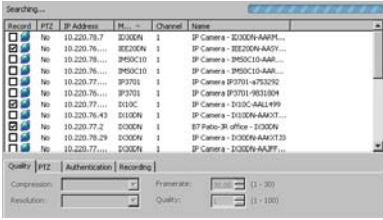

DS4U Software-Only Video Recording Management

Powerful, flexible and absolutely free, DS4U is the four-channel, software-only recording solution that now comes with every Pelco IP camera. Use DS4U to manage and record four Pelco IP cameras, or upgrade the system to record up to 64 channels from Pelco IP or third-party IP camera systems. DS4U supports Standard-Definition (SD) and High-Definition (HD) cameras and records H.264 and MJPEG compression streams. With the ability to configure the recording rate on a per-camera basis, along with features such as motion or continuous recording, users can get the most out of their system. Purchase a Pelco IP camera today and experience free, flexible recording with DS4U.
