Sarix IX Series

Featuring industry leading low light performance, H.264 compression, consistent color science, built-in analytics and more, the IX Series combines world-class Sarix technology with a modern sleek design that can be used in practically any environment. These fixed network cameras can be customized with a Pelco megapixel lens or a Pelco enclosure for indoor or outdoor use.

Sarix IX

Sarix ID Series

The ID Series features all the powerful performance of Sarix technology along with several innovations and benefits not found in any other dome. These integrated domes can be installed in minutes with one hand and practically no tools. Auto Back Focus allows installers to set precise focus after the dome is in place, and CS mount lenses deliver a lower f-stop and higher quality optics.

Sarix ID

Sarix IM Series

Compact yet powerful, the IM Series packs the most popular features and functionality of Sarix technology into a discrete and value driven indoor dome enclosure. Available in 1.3 megapixel or standard-definition (SD) models, the IM Series delivers best-in-class low light performance, simple installation, H.264 compression, consistent color science, built-in analytics, and more.
